

## SPORTS PREMIUM – 2016 – 2017

### **How Barnfield is allocating the funding:**

- ✓ We have allocated some of the funding to buy into the Barnet Sports Partnership facilities which provide access to sporting competitions, coaching and other sports opportunities for our children.
- ✓ A large proportion of the budget is being spent on professional development of our staff in outdoor games. We have invested in a specialist PE coach to work alongside our class teachers and provide them with continuing professional development opportunities to up-skill their own teaching of PE. Last year this team-teaching was directed at our Junior teachers. Each teacher works together with the coach all term and receives feedback and targets on their delivery of PE. Units of work are then subsequently planned to ensure that high quality PE is delivered by all our Junior teachers.
- ✓ PE is a Barnfield school priority this year and we train all of our staff in the teaching of high quality, inclusive PE lessons in termly inset training sessions. The grant has helped to ensure that we have enough equipment and planning time in order to deliver these successfully.
- ✓ Some of the government PE allocation is spent on teacher release of a PE specialist member of staff to team-teach with teachers in indoor PE (dance and gymnastics) to develop their subject knowledge and lesson delivery.
- ✓ Barnfield provides a very wide range of extra-curricular sports opportunities outside of the school day (street dance, fit club, football, netball, cricket, athletics, gymnastics). The government grant has helped to extend these opportunities and ensure that we can offer them free of charge to our students.
- ✓ Our meal time supervisors have received training from the borough's PE advisor in the delivery of a range of fun, active and accessible lunchtime games and activities to promote with the children.

Total Grant : £10,106
