

SPORTS PREMIUM – 19/20 and 20/21

The Sports Premium Grant allows schools to improve access, participation and enjoyment of PE and competitive sport.

In the academic year 2019/20, we were allocated £19,620.

How we allocated the funding		Cost
Staff CPD	A large proportion of the budget was spent on professional development of our staff in outdoor games. We invested in a specialist PE coach to work alongside our class teachers and provide them with professional development opportunities to up-skill their own teaching of PE. Last year this team-teaching was directed at indoor PE. Teachers worked together with the coach and received feedback and targets on their delivery of PE lessons. Units of work were then subsequently planned to ensure that high quality PE was delivered. New teachers to the school were given the priority for professional development and staff who had moved year group were also supported.	£10,442
Increase participation of pupils in physical activity	Some of the budget was set aside for more clubs to allow for more pupils to be active in the school week. This was a great success and an area we would like to constantly develop as each year goes by, to achieve the goal of ensuring that all pupils take part in at least one form of extra-curricular physical activity per week.	£2412
Equipment and extra CPD	The rest of the budget was set aside to spend on more up-to-date PE equipment to improve lessons, clubs as well as playtime, but with the arrival of Covid 19, focus went on other priority areas. The money we intended on using for this will be pushed over to next year, where we will be reviewing our PE and sports equipment.	£6766

In the academic year 2020/21, we will be allocated £19,620.

How we plan to allocate the funding		Cost
Mini bus	One priority in the area of PE is to increase the school's participation in competitive sport across the borough. One barrier to this has been the lack of transportation to events. To target this, we plan to acquire a mini-bus to allow for safe and easy transportation to and from events.	£10,000+
Increase participation of pupils in physical activity	Carrying on from last year, we plan to provide the pupils of Barnfield with a variety of extra-curricular sports clubs. The aim will be to provide enough opportunities so that all pupils at Barnfield can attend at least one sports club every week. In order to do this, we will call on the support of our wonderful staff to run the clubs, which may come at a cost for their time.	£3000-5000
Staff CPD	Our PE lead is reaching out to staff to gauge confidence in the area of teaching PE. From this, we can offer out CPD, either run through BPSI or external companies.	£1000-2000
Equipment and extra CPD	<p>We would like to improve on the current PE and sports equipment that we have here at Barnfield. With more participation in borough events, we require better equipment in order to better prepare pupils for events.</p> <p>Further equipment will also allow for more enjoyment, not only during PE lessons, but also at playtime.</p>	£2000-3000
